

Colpim

INNOVATION BY DESIGN

## Qualifications To Meet Your Specifications

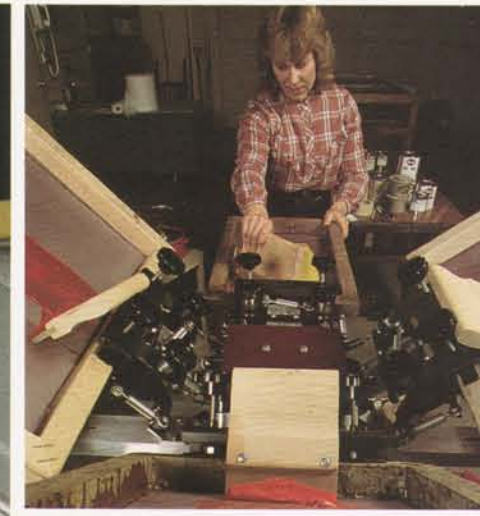

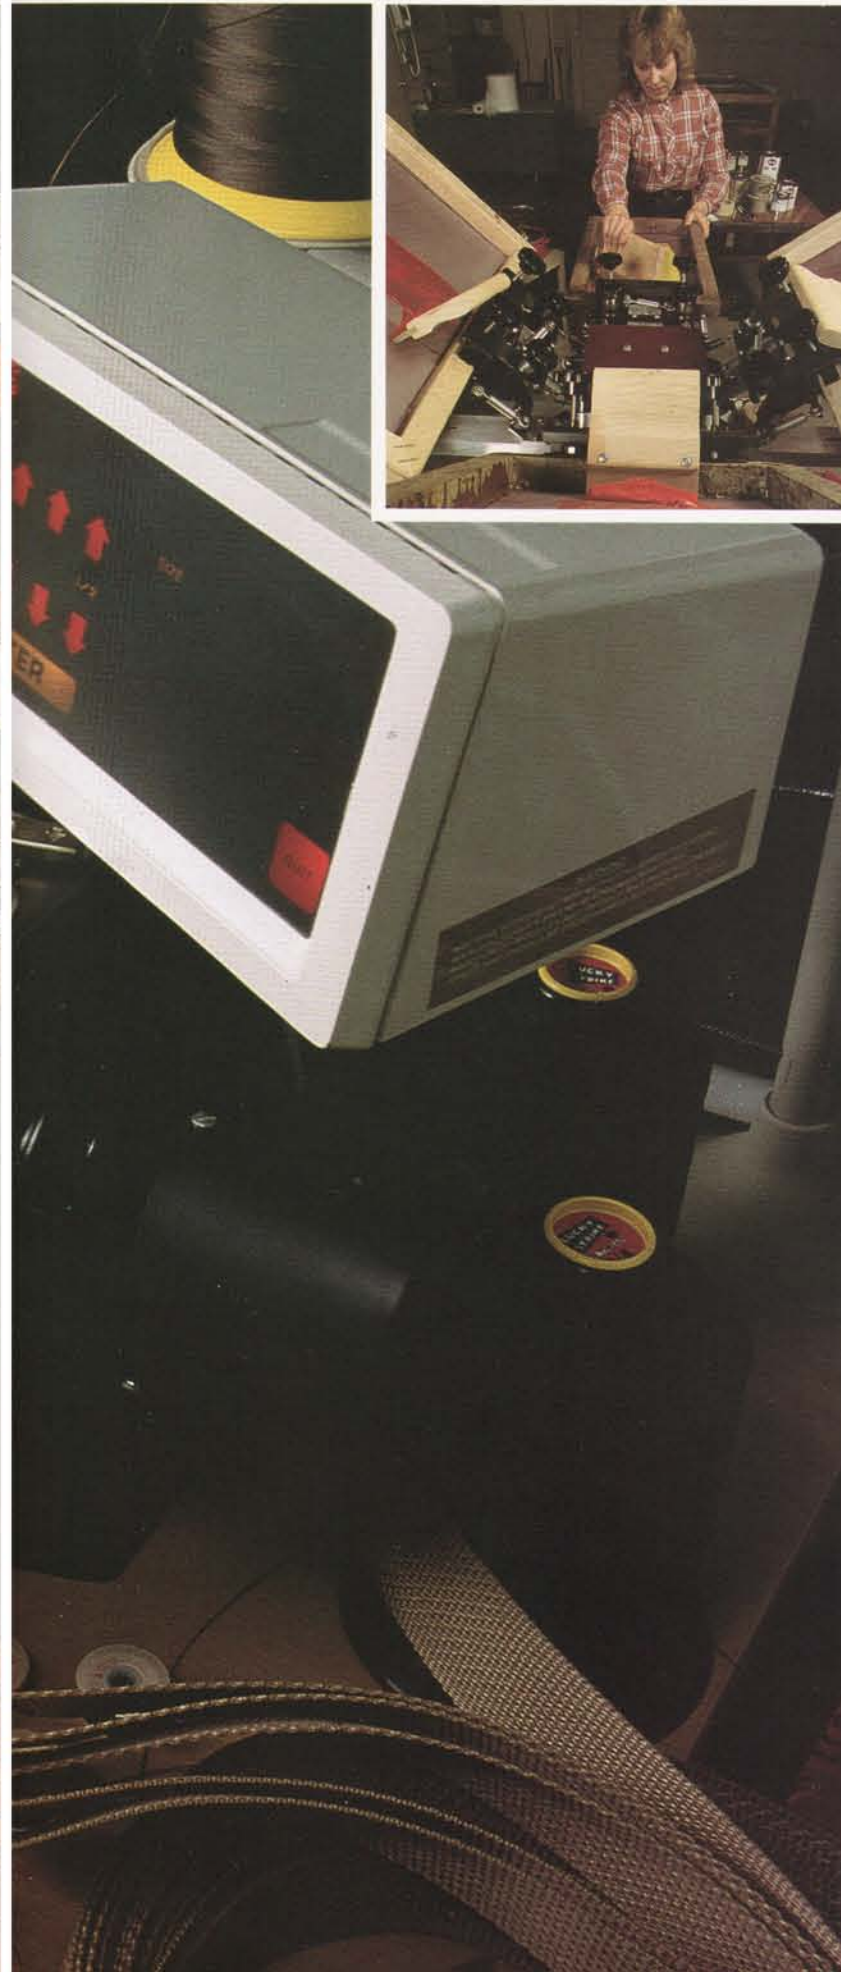

You've researched your market, planned your strategy, and produced a quality product.

You've covered all the bases. Now cover your product with Kolpin. No matter what kind of case, bag or custom covering you want, we can make it to fit your specific needs.

Because at Kolpin, artists, engineers and craftsmen are partners in design.

Together we can produce a distinctive cover to enhance your product's image and protect it from wear.

After all, what you put your product into is just as important as what you put into your product.

Our work begins and ends with people. From the first hand-cut prototype pattern, to the final hands-on inspection.

Your cover will be built by skilled craftsmen whose technical training, expertise and experience are unmatched in the industry. In fact, many Kolpin people have been with us for two decades or more. Their experienced hands give extra care and pay extra attention to every detail.

Our equipment is the fastest, most efficient in sewing technology. With built-in computers and microprocessors that help human hands put every stitch, bind and fold exactly where they belong.

Working from a sample of your product, we'll make a sample of ours — a prototype that serves function and fashion.

And Kolpin's designers and engineers will work hand in hand to make sure your cover is as handsome as it is rugged.

We choose from a wide variety of attractive colors and rich textures. From leathers and suedes to canvas, virgin vinyls, Cordura® and other high grade synthetics. They're thoroughly tested fabrics with proven resistance to abrasions, punctures, temperature extremes and wear.

At Kolpin, we give careful consideration to the design of your cover. And design is just the first step.

## Quality Control. We Always Have A Hand In It.

Kolpin

We ensure quality every step of the way. By checking every single unit produced, at every single stage of production.

This 100% inspection guarantees your Kolpin cover is the best you can buy. Regardless of materials. Regardless of price.

We don't compromise on design and we won't compromise on craftsmanship. That's why your product will last longer with a Kolpin cover. And a Kolpin cover will last as long as your product.

# Put It Under Kolpin Cover

So meet with us. Work with us. Tell us your needs. Then, let us create a prototype that exceeds all conventional standards.

We're an American manufacturer, so we're always there when you need us. With innovative, advanced designs and features no other manufacturer can deliver in mass quantities.

Whatever your product, we can produce a case, cover or container for it. Distinct in size, color and fabric. Built better and stronger to last longer.

Call us. At Kolpin, we answer your needs.
